USE of DAAD and ministry logo

On your publications, documents, etc., the contribution of the partners involved in the program is to be made clear through the use of the logo. Your university operates as the sender, the DAAD and federal ministries (AA, BMFTR, BMZ ...) as the sponsor, this is indicated by a funding addendum, which is included in the logo of all ministries (see here: https://daad.canto.global/b/M96MM).
To make clear the responsibility of the organizations involved on your products in print and web, the logos appear clearly separated from each other.

The logo of your university is prominently in the first place. The logos of the funding organizations appear next to or at the bottom of the document, in publications in the imprint. The sponsor logo is to the left of the DAAD logo, the funding notice refers to both logos.

Logo of your University

With funding from the:

Federal Ministry
of Research, Technology
and Space

DAAD Deutscher Akademischer Austauschdienst
German Academic Exchange Service

Usage requirement:

DAAD-Logo: Please note the protection zone around the DAAD logo: it is included in the file, must not be changed and is one third of the size of the circle. It's on a white background.

Please note the following for the **logo of the funding ministry** (AA, BMFTR, BMZ ...):

It is always to be placed on a white background.

Protection zone:

Please note that the use of these logos must be approved by the respective ministry!
